Powerful.

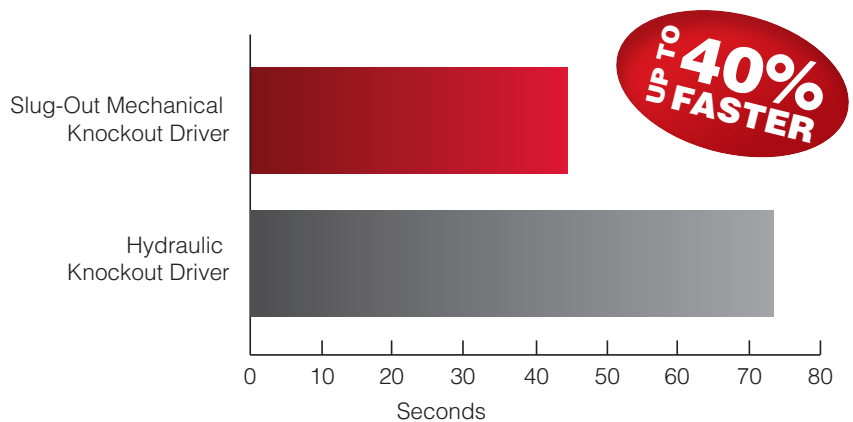

# Slug-Out™ Knockout Mechanical Driver

Enhance the tool you own with the new Gardner Bender® Slug-Out Knockout Driver. Turn your ordinary everyday cordless drill into a powerful knockout driver. You win—with the versatile dual drive, durable all metal construction and powerful gear design! Save time, hassle and money, with Gardner Bender.

### Total time to make a hole\*

\* internal testing

PATENT PENDING

**This feature-rich driver delivers every time because it is:**

**NO HYDRAULICS, NO LEAKS!**

- **Versatile:** ready to use quickly in any environment with dual-drive functionality
- **Durable:** with precision gearing and an all metal housing, this driver was made with heavy-use in mind... *Jobsite STRONG!*
- **Powerful:** as an addition to your drill, it puts all the power to make clean holes right in your hands
- All of these Features mean increased productivity for the user.

The Gardner Bender mechanical driver is a compact, light-weight and field-serviceable knockout tool operated by a single person. Hydraulic drivers require hoses, seals, larger size tools and most need two people to operate.

Perfect for tight places

Tactile grip

3/8" Dual square drive

Self-centering punch and die

Multiple angles
